

# TODAH RABAH, SENATOR MICHAEL BENNET

Thank you for leading the way  
to prevent a nuclear armed Iran.

While there are no perfect options, as you said:

“After an exhaustive review of the agreement and a lengthy consultation process, which included briefings from our own defense, national security and intelligence experts, international inspection and verification experts, regional experts, former Israeli military and intelligence officials, and the P5+1 ambassadors as well as Israel’s Ambassador to the United States, I have concluded that **this agreement is more likely to prevent Iran from acquiring a nuclear weapon than the plausible alternatives.**”

We couldn’t agree more.

## **Kol Hakavod!**
