

TODAH RABAH, CONGRESSMAN JERRY NADLER.

Thank you for leading the way
to prevent a nuclear armed Iran.

While there are no perfect options, as you said:
“the stakes are too high to allow for anything but
clear-headed and thoughtful analysis, with an acute
awareness that there are sharply divided opinions and
passionate feelings on both sides. **I believe there is one
overriding objective against which we must judge the
P5+1 Joint Comprehensive Plan of Action (JCPOA):
preventing Iran from obtaining a nuclear bomb.”**

We couldn't agree more.

Kol Hakavod!
